The Honorable Mary Jo White
Chair
U.S. Securities and Exchange Commission
100 F Street, NE
Washington, DC 20549

Dear Chair White:

The House Committee on Science, Space, and Technology (the Committee) is troubled by the Security and Exchange Commission's (SEC) recently announced investigation of Exxon Mobil Corporation (Exxon). It appears from press accounts that the SEC's investigative actions, which date back to at least August of this year, are couched in concerns related to the science of climate change.¹ More disturbingly, media coverage has directly linked the Commission's "far-reaching" inquiry to New York Attorney General (AG) Eric Schneiderman's ongoing investigation into Exxon under state securities fraud law.² The Committee is currently investigating the New York AG's Exxon probe in order to assess the adverse effects his investigation might pose to the scientific research and development (R&D) enterprise.³ Although the Committee is not interested in the merits of the New York AG's nearly year-long

TIMES (Sept. 20, 2016), available at http://www.nytimes.com/2016/09/21/business/energy-environment/exxon-climate-change.html?_r=0; Matt Robinson & Joe Carroll, *Exxon's Accounting Said to Prompt SEC Review After Crude Slump*, BLOOMBERG MKTS., <http://www.bloomberg.com/news/articles/2016-09-20/exxon-s-accounting-said-to-prompt-sec-review-after-oil-slump> (Sept. 20, 2016).

J. <http://www.wsj.com/articles/sec-investigating-exxon-on-valuing-of-assets-accounting-practices-1474393593> (last accessed Sept. 20, 2016) ("The SEC made a far-reaching request in August that mirrors many of the areas Mr. Schneiderman is known to be investigating. The agency asked Exxon to produce information about its analysis of climate data and research, how it values assets and how a more serious global response to climate change would impact its business, according to a person familiar with the matter.").

probe, the AG's efforts, characterized variously as a "witch hunt" and "fool's errand,"⁴ an "abuse of powers,"⁵ "pathetic,"⁶ a "schtick,"⁷ and an "uphill battle,"⁸ have failed to uncover any indicia of wrongdoing by Exxon. This raises questions as to why the SEC would assume the mantle of the New York AG's fruitless investigation.⁹

The Committee's jurisdiction over energy and environmental research¹⁰ includes an obligation to ensure that such research advances the American scientific enterprise to the fullest extent possible, free from threat of intimidation or prosecution. The Committee is concerned that the SEC, by wielding its enforcement authority against companies like Exxon for its collection of and reliance on what is perhaps in the SEC's view inadequate climate data used to value its assets, advances a prescriptive climate change orthodoxy that may chill further climate change research throughout the public and private scientific R&D sector. Specifically, the Committee is concerned that an investigation into whether Exxon failed to comply with climate change-related disclosure regulations for its oil reserves and other assets may be a disincentive to conducting scientific research that underlies and informs those asset valuations. Additionally, to the extent that the SEC initiated its investigation based on information received from the New York AG, the SEC's probe may also serve to illustrate the very effects on free scientific inquiry that the Committee is currently investigating. Accordingly, the Committee requests information about the purpose, scope, and origin of the SEC's investigation into Exxon.

To aid the Committee in better understanding the purpose, scope, and origin of the SEC's investigation, please provide the following for the time period January 1, 2015 to present:

1. All documents and communications between or among officers or employees at the SEC referring or relating to the SEC's decision to investigate Exxon regarding any of its climate change-related financial disclosures.
2. All documents and communications between SEC officers or employees and any officer or employee of the Department of Justice or the White House, including but not limited
