Suspend the Rules And Pass the Bill, H.R. 2413, with Amendments

(The amendments strike all after the enacting clause and insert a new text and a new title)

^{113TH CONGRESS} 2D SESSION H.R. 2413

To prioritize and redirect NOAA resources to a focused program of investment on near-term, affordable, and attainable advances in observational, computing, and modeling capabilities to deliver substantial improvement in weather forecasting and prediction of high impact weather events, such as tornadoes and hurricanes, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

JUNE 18, 2013

Mr. BRIDENSTINE (for himself, Mr. SMITH of Texas, Mr. STEWART, and Mr. HARRIS) introduced the following bill; which was referred to the Committee on Science, Space, and Technology

A BILL

- To prioritize and redirect NOAA resources to a focused program of investment on near-term, affordable, and attainable advances in observational, computing, and modeling capabilities to deliver substantial improvement in weather forecasting and prediction of high impact weather events, such as tornadoes and hurricanes, and for other purposes.
 - Be it enacted by the Senate and House of Representa tives of the United States of America in Congress assembled,

 $\mathbf{2}$

1 SECTION 1. SHORT TITLE.

2 This Act may be cited as the "Weather Forecasting3 Improvement Act of 2014".

4 SEC. 2. PUBLIC SAFETY PRIORITY.

5 In accordance with NOAA's critical mission to pro-6 vide science, service, and stewardship, the Under Sec-7 retary shall prioritize weather-related activities, including 8 the provision of improved weather data, forecasts, and 9 warnings for the protection of life and property and the 10 enhancement of the national economy, in all relevant line 11 offices.

12 SEC. 3. WEATHER RESEARCH AND FORECASTING INNOVA-13 TION.

(a) PROGRAM.—The Assistant Administrator for
OAR shall conduct a program to develop improved understanding of and forecast capabilities for atmospheric
events and their impacts, placing priority on developing
more accurate, timely, and effective warnings and forecasts of high impact weather events that endanger life and
property.

(b) PROGRAM ELEMENTS.—The program describedin subsection (a) shall focus on the following activities:

(1) Improving the fundamental understanding
of weather consistent with section 2, including the
boundary layer and other atmospheric processes affecting high impact weather events.

(2) Improving the understanding of how the
 public receives, interprets, and responds to warnings
 and forecasts of high impact weather events that en danger life and property.
 (3) Research and development, and transfer of
 knowledge, technologies, and applications to the

NWS and other appropriate agencies and entities,
including the American weather industry and academic partners, related to—

10 (A) advanced radar, radar networking
11 technologies, and other ground-based tech12 nologies, including those emphasizing rapid,
13 fine-scale sensing of the boundary layer and
14 lower troposphere, and the use of innovative,
15 dual-polarization, phased array technologies;

16 (B) aerial weather observing systems;
17 (C) high performance computing and infor18 mation technology and wireless communication
19 networks;

20 (D) advanced numerical weather prediction
21 systems and forecasting tools and techniques
22 that improve the forecasting of timing, track,
23 intensity, and severity of high impact weather,
24 including through—

F:\TB\SUS\H2413_SU2.XML

1	(i) the development of more effective
2	mesoscale models;
3	(ii) more effective use of existing, and
4	the development of new, regional and na-
5	tional cloud-resolving models;
6	(iii) enhanced global weather models;
7	and
8	(iv) integrated assessment models;
9	(E) quantitative assessment tools for meas-
10	uring the impact and value of data and observ-
11	ing systems, including OSSEs (as described in
12	section 8), OSEs, and AOAs;
13	(F) atmospheric chemistry and interactions
14	essential to accurately characterizing atmos-
15	pheric composition and predicting meteorolog-
16	ical processes, including cloud microphysical,
17	precipitation, and atmospheric electrification
18	processes, to more effectively understand their
19	role in severe weather; and
20	(G) additional sources of weather data and
21	information, including commercial observing
22	systems.
23	(4) A technology transfer initiative, carried out
24	jointly and in coordination with the Assistant Ad-
25	ministrator for NWS, and in cooperation with the

 $\mathbf{5}$

1 American weather industry and academic partners, 2 to ensure continuous development and transition of 3 the latest scientific and technological advances into 4 NWS operations and to establish a process to sunset 5 outdated and expensive operational methods and 6 tools to enable cost-effective transfer of new methods 7 and tools into operations.

8 (c) EXTRAMURAL RESEARCH.—

9 (1) IN GENERAL.—In carrying out the program 10 under this section, the Assistant Administrator for 11 OAR shall collaborate with and support the non-12 Federal weather research community, which includes 13 institutions of higher education, private entities, and 14 nongovernmental organizations, by making funds 15 available through competitive grants, contracts, and 16 cooperative agreements.

17 (2) SENSE OF CONGRESS.—It is the sense of 18 Congress that not less than 30 percent of the funds 19 authorized for research and development at OAR by 20 this Act should be made available for this purpose. 21 (d) REPORT.—The Under Secretary shall transmit to 22 Congress annually, concurrently with NOAA's budget re-23 quest, a description of current and planned activities under this section. 24

1SEC. 4. TORNADO WARNING IMPROVEMENT AND EXTEN-2SION PROGRAM.

3 (a) IN GENERAL.—The Under Secretary, in collabo4 ration with the American weather industry and academic
5 partners, shall establish a tornado warning improvement
6 and extension program.

7 (b) GOAL.—The goal of such program shall be to re-8 duce the loss of life and economic losses from tornadoes 9 through the development and extension of accurate, effec-10 tive, and timely tornado forecasts, predictions, and warn-11 ings, including the prediction of tornadoes beyond one 12 hour in advance.

(c) PROGRAM PLAN.—Not later than 6 months after
the date of enactment of this Act, the Assistant Administrator for OAR, in consultation with the Assistant Administrator for NWS, shall develop a program plan that details the specific research, development, and technology
transfer activities, as well as corresponding resources and
timelines, necessary to achieve the program goal.

(d) BUDGET FOR PLAN.—Following completion of
the plan, the Assistant Administrator for OAR, in consultation with the Assistant Administrator for NWS, shall
transmit annually to Congress a proposed budget corresponding to the activities identified in the plan.

1 SEC. 5. HURRICANE WARNING IMPROVEMENT PROGRAM.

2 (a) IN GENERAL.—The Under Secretary, in collabo3 ration with the American weather industry and academic
4 partners, shall establish a hurricane warning improvement
5 program.

6 (b) GOAL.—The goal of such program shall be to de7 velop and extend accurate hurricane forecasts and warn8 ings in order to reduce loss of life, injury, and damage
9 to the economy.

10 (c) PROGRAM PLAN.—Not later than 6 months after 11 the date of enactment of this Act, the Assistant Adminis-12 trator for OAR, in consultation with the Assistant Admin-13 istrator for NWS, shall develop a program plan that de-14 tails the specific research, development, and technology 15 transfer activities, as well as corresponding resources and 16 timelines, necessary to achieve the program goal.

(d) BUDGET FOR PLAN.—Following completion of
the plan, the Assistant Administrator for OAR, in consultation with the Assistant Administrator for NWS, shall
transmit annually to Congress a proposed budget corresponding to the activities identified in the plan.

22 SEC. 6. WEATHER RESEARCH AND DEVELOPMENT PLAN23 NING.

Not later than 6 months after the date of enactment
of this Act, and annually thereafter, the Assistant Administrator for OAR, in coordination with the Assistant Ad-

ministrators for NWS and NESDIS, shall issue a research
 and development plan to restore and maintain United
 States leadership in numerical weather prediction and
 forecasting that—

- 5 (1) describes the forecasting skill and tech-6 nology goals, objectives, and progress of NOAA in 7 carrying out the program conducted under section 3; 8 (2) identifies and prioritizes specific research 9 and development activities, and performance metrics, 10 weighted to meet the operational weather mission of 11 NWS;
- (3) describes how the program will collaborate
 with stakeholders, including the American weather
 industry and academic partners; and
- 15 (4) identifies, through consultation with the Na-16 tional Science Foundation, American weather indus-17 try, and academic partners, research necessary to 18 enhance the integration of social science knowledge 19 into weather forecast and warning processes, includ-20 ing to improve the communication of threat informa-21 tion necessary to enable improved severe weather 22 planning and decisionmaking on the part of individ-23 uals and communities.

24 SEC. 7. OBSERVING SYSTEM PLANNING.

25 The Under Secretary shall—

(1) develop and maintain a prioritized list of
 observation data requirements necessary to ensure
 weather forecasting capabilities to protect life and
 property to the maximum extent practicable;
 (2) undertake, using OSSEs, OSEs, AOAs, and
 other appropriate assessment tools, ongoing system atic evaluations of the combination of observing sys-

8 tems, data, and information needed to meet the re9 quirements listed under paragraph (1), assessing
10 various options to maximize observational capabili11 ties and their cost-effectiveness;

(3) identify current and potential future data
gaps in observing capabilities related to the requirements listed under paragraph (1); and

15 (4) determine a range of options to address16 gaps identified under paragraph (3).

17 SEC. 8. OBSERVING SYSTEM SIMULATION EXPERIMENTS.

(a) IN GENERAL.—In support of the requirements of
section 7, the Assistant Administrator for OAR shall undertake OSSEs to quantitatively assess the relative value
and benefits of observing capabilities and systems. Technical and scientific OSSE evaluations—

(1) may include assessments of the impact ofobserving capabilities on—

25 (A) global weather prediction;

1	(B) hurricane track and intensity fore-
2	casting;
3	(C) tornado warning lead times and accu-
4	racy;
5	(D) prediction of mid-latitude severe local
6	storm outbreaks; and
7	(E) prediction of storms that have the po-
8	tential to cause extreme precipitation and flood-
9	ing lasting from 6 hours to 1 week; and
10	(2) shall be conducted in cooperation with other
11	appropriate entities within NOAA, other Federal
12	agencies, the American weather industry, and aca-
13	demic partners to ensure the technical and scientific
14	merit of OSSE results.
15	(b) REQUIREMENTS.—OSSEs shall quantitatively—
16	(1) determine the potential impact of proposed
17	space-based, suborbital, and in situ observing sys-
18	tems on analyses and forecasts, including potential
19	impacts on extreme weather events across all parts
20	of the Nation;
21	(2) evaluate and compare observing system de-
22	sign options; and
23	(3) assess the relative capabilities and costs of
24	various observing systems and combinations of ob-

- serving systems in providing data necessary to pro tect life and property.
- 3 (c) IMPLEMENTATION.—OSSEs—

4 (1) shall be conducted prior to the acquisition 5 of major Government-owned or Government-leased 6 operational observing systems, including polar-orbit-7 ing and geostationary satellite systems, with a 8 lifecycle cost of more than \$500,000,000; and

9 (2) shall be conducted prior to the purchase of
10 any major new commercially provided data with a
11 lifecycle cost of more than \$500,000,000.

(d) PRIORITY OSSES.—Not later than June 30, 2014,
the Assistant Administrator for OAR shall complete
OSSEs to assess the value of data from both Global Positioning System radio occultation and a geostationary
hyperspectral sounder global constellation.

(e) RESULTS.—Upon completion of all OSSEs, results shall be publicly released and accompanied by an assessment of related private and public sector weather data
sourcing options, including their availability, affordability,
and cost effectiveness. Such assessments shall be developed in accordance with section 50503 of title 51, United
States Code.

1 SEC. 9. COMPUTING RESOURCES PRIORITIZATION REPORT.

Not later than 12 months after the date of enactment
of this Act, and annually thereafter, the NOAA Chief Information Officer, in coordination with the Assistant Administrator for OAR and the Assistant Administrator for
NWS, shall produce and make publicly available a report
that explains how NOAA intends to—

8 (1) aggressively pursue the newest, fastest, and 9 most cost effective high performance computing 10 technologies in support of its weather prediction mis-11 sion;

(2) ensure a balance between the research requirements to develop the next generation of regional and global models and its highly reliable operational models;

16 (3) take advantage of advanced development
17 concepts to, as appropriate, make its next generation
18 weather prediction models available in beta-test
19 mode to its operational forecasters, the American
20 weather industry, and its partners in academic and
21 government research;

(4) identify opportunities to reallocate existing
advanced computing resources from lower priority
uses to improve advanced research and operational
weather prediction; and

(5) harness new computing power in OAR and
 NWS for immediate improvement in forecasting and
 experimentation.

4 SEC. 10. COMMERCIAL WEATHER DATA.

5 (a) AMENDMENT.—Section 60161 of title 51, United
6 States Code, is amended by adding at the end the fol7 lowing: "This prohibition shall not extend to—

8 "(1) the purchase of weather data through con-9 tracts with commercial providers; or

10 "(2) the placement of weather satellite instru11 ments on cohosted government or private payloads.".
12 (b) STRATEGY.—

13 (1) IN GENERAL.—Not later than 6 months 14 after the date of enactment of this Act, the Sec-15 retary of Commerce, in consultation with the Under 16 Secretary, shall transmit to the Committee on 17 Science, Space, and Technology of the House of 18 Representatives and the Committee on Commerce, 19 Science, and Transportation of the Senate a strategy 20 to enable the procurement of quality commercial 21 weather data. The strategy shall assess the range of 22 commercial opportunities, including public-private 23 partnerships, for obtaining both surface-based and 24 space-based weather observations. The strategy shall 25 include the expected cost effectiveness of these op-

1	portunities as well as provide a plan for procuring
2	data, including an expected implementation timeline,
3	from these nongovernmental sources, as appropriate.
4	(2) Requirements.—The strategy shall in-
5	clude—
6	(A) an analysis of financial or other bene-
7	fits to, and risks associated with, acquiring
8	commercial weather data or services, including
9	through multiyear acquisition approaches;
10	(B) an identification of methods to address
11	planning, programming, budgeting, and execu-
12	tion challenges to such approaches, including—
13	(i) how standards will be set to ensure
14	that data is reliable and effective;
15	(ii) how data may be acquired through
16	commercial experimental or innovative
17	techniques and then evaluated for integra-
18	tion into operational use;
19	(iii) how to guarantee public access to
20	all forecast-critical data to ensure that the
21	American weather industry and the public
22	continue to have access to information crit-
23	ical to their work; and
24	(iv) in accordance with section 50503
25	of title 51, United States Code, methods to

1	address potential termination liability or
2	cancellation costs associated with weather
3	data or service contracts; and
4	(C) an identification of any changes needed
5	in the requirements development and approval
6	processes of the Department of Commerce to
7	facilitate effective and efficient implementation
8	of such strategy.
9	SEC. 11. WEATHER RESEARCH AND INNOVATION ADVISORY
10	COMMITTEE.
11	(a) ESTABLISHMENT.—The Under Secretary shall es-
12	tablish a Federal Advisory Committee to—
13	(1) provide advice for prioritizing weather re-
14	search initiatives at NOAA to produce real improve-
15	ment in weather forecasting;
16	(2) provide advice on existing or emerging tech-
17	nologies or techniques that can be found in private
18	industry or the research community that could be in-
19	corporated into forecasting at NWS to improve fore-
20	casting;
21	(3) identify opportunities to improve commu-
22	nications between weather forecasters, emergency
23	management personnel, and the public; and

(4) address such other matters as the Under
 Secretary or the Advisory Committee believes would
 improve innovation in weather forecasting.

4 (b) Composition.—

5 (1) IN GENERAL.—The Under Secretary shall 6 appoint leading experts and innovators from all rel-7 evant fields of science and engineering that inform 8 meteorology, including atmospheric chemistry, at-9 mospheric physics, hydrology, social science, risk 10 communications, electrical engineering, and com-11 puter modeling.

(2) NUMBER.—The Advisory Committee shall
be composed of at least 12 members, with the chair
of the Advisory Committee chosen by the Under Secretary from among the members.

16 (3) RESTRICTION.—The Under Secretary may
17 not appoint a majority of members who are employ18 ees of NOAA-funded research centers.

(c) ANNUAL REPORT.—The Advisory Committee
shall transmit annually to the Under Secretary a report
on progress made by NOAA in adopting the Advisory
Committee's recommendations. The Under Secretary shall
transmit a copy of such report to the Committee on
Science, Space, and Technology of the House of Rep-

resentatives and the Committee on Commerce, Science,
 and Transportation of the Senate.

3 (d) DURATION.—Section 14 of the Federal Advisory
4 Committee Act (5 U.S.C. App.) shall not apply to the Ad5 visory Committee until the date that is 5 years after the
6 date of enactment of this Act.

7 SEC. 12. INTERAGENCY WEATHER RESEARCH AND INNOVA8 TION COORDINATION.

9 (a) ESTABLISHMENT.—The Director of the Office of 10 Science and Technology Policy shall establish an Inter-11 agency Committee for Advancing Weather Services to im-12 prove coordination of relevant weather research and fore-13 cast innovation activities across the Federal Government. 14 The Interagency Committee shall—

(1) include participation by the National Aeronautics and Space Administration, the Federal Aviation Administration, NOAA and its constituent elements, the National Science Foundation, and such
other agencies involved in weather forecasting research as the President determines are appropriate;

(2) identify and prioritize top forecast needs
and coordinate those needs against budget requests
and program initiatives across participating offices
and agencies; and

(3) share information regarding operational
 needs and forecasting improvements across relevant
 agencies.

4 (b) CO-CHAIR.—The Federal Coordinator for Meteor-5 ology shall serve as a co-chair of this panel.

6 (c) FURTHER COORDINATION.—The Director shall 7 take such other steps as are necessary to coordinate the 8 activities of the Federal Government with those of the 9 American weather industry, State governments, emer-10 gency managers, and academic researchers.

11 SEC. 13. OAR AND NWS EXCHANGE PROGRAM.

(a) IN GENERAL.—The Assistant Administrator for
OAR and the Assistant Administrator for NWS may establish a program to detail OAR personnel to the NWS
and NWS personnel to OAR.

(b) GOAL.—The goal of this program is to enhance
forecasting innovation through regular, direct interaction
between OAR's world-class scientists and NWS's operational staff.

(c) ELEMENTS.—The program shall allow up to 10
OAR staff and NWS staff to spend up to 1 year on detail.
Candidates shall be jointly selected by the Assistant Administrator for OAR and the Assistant Administrator for
NWS.

1 (d) REPORT.—The Under Secretary shall report an-2 nually to the Committee on Science, Space, and Tech-3 nology of the House of Representatives and to the Com-4 mittee on Commerce, Science, and Transportation of the 5 Senate on participation in such program and shall high-6 light any innovations that come from this interaction.

7 SEC. 14. VISITING FELLOWS AT NWS.

8 (a) IN GENERAL.—The Assistant Administrator for
9 NWS may establish a program to host postdoctoral fellows
10 and academic researchers at any of the National Centers
11 for Environmental Prediction.

12 (b) GOAL.—This program shall be designed to pro-13 vide direct interaction between forecasters and talented 14 academic and private sector researchers in an effort to 15 bring innovation to forecasting tools and techniques avail-16 able to the NWS.

17 (c) SELECTION AND APPOINTMENT.—Such fellows18 shall be competitively selected and appointed for a term19 not to exceed 1 year.

20 SEC. 15. DEFINITIONS.

- 21 In this Act:
- (1) AOA.—The term "AOA" means an Anal-ysis of Alternatives.

f:\VHLC\031814\031814.023.xml March 18, 2014 (11:09 a.m.)

1	(2) NESDIS.—The term "NESDIS" means
2	the National Environmental Satellite, Data, and In-
3	formation Service.
4	(3) NOAA.—The term "NOAA" means the Na-
5	tional Oceanic and Atmospheric Administration.
6	(4) NWS.—The term "NWS" means the Na-
7	tional Weather Service.
8	(5) OAR.—The term "OAR" means the Office
9	of Oceanic and Atmospheric Research.
10	(6) OSE.—The term "OSE" means an Observ-
11	ing System Experiment.
12	(7) OSSE.—The term "OSSE" means an Ob-
13	serving System Simulation Experiment.
14	(8) UNDER SECRETARY.—The term "Under
15	Secretary" means the Under Secretary of Commerce
16	for Oceans and Atmosphere.
17	SEC. 16. AUTHORIZATION OF APPROPRIATIONS.
18	(a) FISCAL YEAR 2014.—There are authorized to be
19	appropriated for fiscal year 2014—
20	(1) \$83,000,000 to OAR to carry out this Act,
21	of which—
22	(A) \$65,000,000 is authorized for weather
23	laboratories and cooperative institutes; and
24	(B) \$18,000,000 is authorized for weather
25	and air chemistry research programs; and

1	(2) out of funds made available for research
2	and development in NWS, an additional amount of
3	\$14,000,000 for OAR to carry out the joint tech-
4	nology transfer initiative described in section
5	3(b)(4).
6	(b) ALTERNATIVE FUNDING FOR FISCAL YEAR
7	2014.—If the Budget Control Act of 2011 (Public Law
8	112–25) is repealed or replaced with an Act that increases
9	allocations, subsection (a) shall not apply, and there are
10	authorized to be appropriated for fiscal year 2014—
11	(1) \$96,500,000 to OAR to carry out this Act,
12	of which—
13	(A) $$77,500,000$ is authorized for weather
14	laboratories and cooperative institutes; and
15	(B) \$19,000,000 is authorized for weather
16	
10	and air chemistry research programs; and
17	and air chemistry research programs; and (2) out of funds made available for research
17	(2) out of funds made available for research
17 18	(2) out of funds made available for research and development in NWS, an additional amount of
17 18 19	(2) out of funds made available for research and development in NWS, an additional amount of \$16,000,000 for OAR to carry out the joint tech-
17 18 19 20	(2) out of funds made available for research and development in NWS, an additional amount of \$16,000,000 for OAR to carry out the joint tech- nology transfer initiative described in section
17 18 19 20 21	(2) out of funds made available for research and development in NWS, an additional amount of \$16,000,000 for OAR to carry out the joint tech- nology transfer initiative described in section 3(b)(4).

1	(1) \$100,000,000 to OAR to carry out this Act,
2	of which—
3	(A) \$80,000,000 is authorized for weather
4	laboratories and cooperative institutes; and
5	(B) $$20,000,000$ is authorized for weather
6	and air chemistry research programs; and
7	(2) an additional amount of \$20,000,000 for
8	the joint technology transfer initiative described in
9	section $3(b)(4)$.
10	(d) LIMITATION.—No additional funds are author-
11	ized to carry out this Act, and the amendments made by
12	this Act.

Amend the title so as to read: "A bill to prioritize and redirect NOAA resources to a focused program of investment on affordable and attainable advances in observational, computing, and modeling capabilities to deliver substantial improvement in weather forecasting and prediction of high impact weather events, such as those associated with hurricanes, tornadoes, droughts, floods, storm surges, and wildfires, and for other purposes.".
